

OVERTURE

207288A 24" 5CCT LED Vanity Light

The Overture vanity light in champagne gold is inspired by the graceful batons of orchestral conductors, striking a refined balance between luxe minimalism and expressive form. Its slender arm features rotatable integrated 5CCT LED elements at each end, allowing the light to be directed with precision and artistry. Versatile enough to also function beautifully as a wall sconce, Overture is elevated by a hammered metal detail at the center that adds a jewelry-like glimmer to the design.
